Welcome to academia language!

Word by word towards your personal goal. Come to us if you want to learn a foreign language in a motivated and target-oriented manner – at your own pace and according to your personal requirements.

Our qualified teachers supplement their experience with continuing education. They are competent and passionate about their work.

We collaborate with publishers specialised in education. Our educational management team constantly develops and updates its extensive knowledge regarding curriculum design, textbooks, online material and exercises for all practice situations, which are provided to the teachers. We organise a broad continuing education programme for our teachers and ensure that expertise is implemented in a realistic and practical setting.
